

PROJECT WARM

Weather Assistance Resources for Morganton

Project WARM – Weather Assistance Resources for Morganton – is a partnership between the City of Morganton and Burke United Christian Ministries to provide financial assistance for local residents to help pay utility bills. City utility customers who want to help can add a minimum \$1.00 donation to their utility bill, which the City Finance Dept. sends to Burke United Christian Ministries monthly.

Project Warm is completely voluntary and customers can choose to opt out of making the donation any month. To sign up, fill out this form and mail it in with your utility payment or bring it to the Business Office Counter in City Hall.
